No. 1970

**Introduced by Assembly Member Fong
(Coauthors: Assembly Members Nava, Portantino, and Yamada)**

February 17, 2010

An act to add Section 12301.65 to the Welfare and Institutions Code, relating to public social services.

LEGISLATIVE COUNSEL'S DIGEST

AB 1970, as introduced, Fong. In-home supportive services providers: emergency shelter services.

Existing law, the California Emergency Services Act, establishes emergency services functions of the state, as specified. Existing federal law also provides for the declaration of a federal state of emergency, upon the request made by the Governor of an affected state, for the purpose of receiving federal emergency assistance.

Existing law provides for the In-Home Supportive Services (IHSS) program, under which, either through employment by the recipient, by or through contract by the county, by the creation of a public authority, or pursuant to a contract with a nonprofit consortium, qualified aged, blind, and disabled persons receive services enabling them to remain in their own homes.

Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium. The duties of a public authority or nonprofit consortium include the provision of assistance to recipients

in finding in-home supportive services personnel through the establishment of a provider registry.

This bill would require the State Department of Social Services to make IHSS provider registries available during a state or federally declared state of emergency, upon the request of an emergency shelter operator, for the assistance of seniors and persons with disabilities at the shelter site. The bill would specify county and public authority responsibilities in administering the bill.

By imposing new duties on local officials, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.
